

NAU Environmental Engineering Laboratory

Verification of Site-Specific Laboratory Safety and Hazards Communication

During the laboratory-specific safety review training, mark each item or write information as appropriate. After the training is completed, add the date and sign below to verify that you have completed this training and that you understand the lab-specific considerations that have been covered by this training.

Date: _____

Signature: _____

Name (print): _____

Site-Specific Lab-Safety Considerations

- ☐ No food – No drink and no empty food or drink containers or wrappers
- ☐ No open-toed shoes, and other clothing
- ☐ PPE – Glasses/Goggles, lab coats, gloves and aprons
- ☐ Eyewash/Safety shower stations/First aid kits/Fire extinguisher/Fume hoods
- ☐ Hazard communications station, SDS, and your personal comfort with hazards
- ☐ Using & storing chemicals, chemical Spills, & avoiding contamination of surfaces
- ☐ Clean-up and disinfectant wipes
- ☐ Hazardous wastes and disposal
- ☐ Broken glass and sharps disposal
- ☐ Hand washing
- ☐ Clean areas – No chemicals, samples or contaminated PPE
- ☐ Leaving and returning to the lab
- ☐ Egress procedures
- ☐ Working with and considering others in the Lab
- ☐ Equipment use, check-out, and avoiding equipment contamination
- ☐ Review of other Projects and Their Hazards
- ☐ Failure to follow safety procedures and policies

Review of Current Laboratory Activities and Their Hazards
